- Once you have 200 subscribers use ad swapping services to grow your list
- Look for new traffic sources e.g. content marketing and test them

Once you get to 30 days you should be really ready for action and prepared to make decisions and act on your list building and email marketing business every day. For the next two months continue with reinvesting any sales revenues and purchase more solo ads and Facebook ads.

It is vital that you keep the momentum going. Only send a few offer emails per month and add them to your autoresponder follow up sequences so that new subscribers will see them when the time is right.

The actions in this cheat sheet are all dependent upon the time that you have available. If you work full time then be prepared to outsource tasks to speed things up. This will cost you money but it is a good investment. Check out all outsourcers thoroughly before you hire them.

This is a perfect plan to follow so use it to your advantage. You will have your sales funnel set up quickly and be able to start driving traffic. Once you are ready to go just focus on traffic as this is what will build your list numbers and make you the money.

Follow the plan and make \$10,000+ per month in 90 days!
